BURGLAR KILLED AT WOODSIDE BY J. A. FOLGER. JR.

Early last Wednesday morning James A. Folger, Jr., was awakened by the sound of a burglar at work in his bedroom. Without moving or making any sound, Folger watched the miscreant prowling about the room and finally leave it for another in the house. As the burglar left, Folger arose and secured a pistol which was in a desk in the room. He then went to the bathroom, where the bullets for the pistol were, and loaded it. Upon returning to his room, he just succeeded in closing the door when the burglar returned. The burglar had evidently noticed someone in bed at his first entry to the room, and now, seeing the bed vacant aroused his suspicions, for he seemed to be looking for someone around the room. Not seeing anyone, the intruder reached for the light to turn it on, but at this point Folger exclaimed, "Hold up your hands, or I'll shoot you." Here the burglar made a dash for the door, but before he could make good his escape a bullet from Folger's pistol caught him in the middle of the back. He then ran out of the house and as he ran another bullet struck him in the arm.

The body of the burglar was found in the bushes about three hundred yards from the scene of the shooting, and was conveyed to the James Crowe undertaking parlors, where an investigation failed to lead to any clew as to his identity. There was found upon him, however, a large quantity of jewelry taken from the homes in Woodside, which have been visited by thieves during the last week. A large sum of money was also found upon the body.

While the identity of the burglar is not known, what is thought to be a clue was discovered last Thursday when a woman called up the undertaking parlors and asked concerning the burglar who was shot. The call was from San Francisco, and the woman, who at first refused to give her address, later gave an address in the city. When this issue goes to press the sheriff is in the city trying to locate the woman who was responsible for the call.

The woman, in her conversation over the phone, said that she was expecting a man who had been camping near Woodside. A description of this man compared exactly with the man whose body is now at the morgue. What connection the woman had with the case has not yet been determined.

The sheriff's office has taken the finger prints of the dead man and hopes by this means to determine whether he has a criminal record. This means has so far disclosed no identity, though it is said that the records of California have been thoroughly gone over.

Another point which is still in question is where the burglar hid his spoils, for an autopsy showed him to have been living on very scanty rations for some time, from which it is surmised that he has been keeping away from the towns and only coming from his hidding place at night.

Among those who graduated from the San Jose Teachers' College this week was Miss Loretta Wardlaw, who formerly attended the Sequoia Union High School, but graduated from the Palo Alto High School. SPIRITS OF THE SPARKLING GOES TO WATERY GRAVE

The fishes of the sea made merry last Monday when the deputies of the Sheriff's office sent a truckload of the finest champagne to the bay by way of the Redwood City sewer system. The champagne was discovered on a truck driven by R. W. Hoffman of this city by chief of police, Collins. When Hoffman appeared before the court of City Recorder Mansfield he claimed that he did not know that the wine was on the truck and thought it must have been left there by someone else. The story supplied a smile for the court and Hoffman was taxed $500, which he promptly paid, and Recorder Mansfield, who is making a collection of alibies, added one more to his list.

Francis King Weds in Oakland

Announcement was made this week of the wedding of Francis King of this city and Pauline Ayres of Piedmont. The young couple were quietly married in St. Paul's Episcopal church in Oakland last Monday afternoon by Rev. Allen of that church.

The groom is the son of Mr. and Mrs. Frank King and has been attending the Hasting's Law School from which he graduated last week. The romance started while both the young people were attending the College of the Pacific, where Miss Ayres studied music and where the groom attended for two years having previously spent two years at Stanford. Francis King was a graduate of Sequoia in the class of 1919.

Following the wedding in Oakland the young couple left for Reno, Nevada, where the groom's father is city attorney. During their stay in Reno, King expects to take the bar examination. The young people will probably locate in Reno, where the young man intends to practice law.

Miss Cornwell Gives Party

Miss Dean Cornwell entertained a number of the local teachers at her home in Palo Alto Wednesday evening. The affair was in the nature of a farewell gathering, as Miss Cornwell has resigned her position at Redwood City and on July 10th will be married at her Palo Alto home to Robert Parkinson of Long Beach.

Miss Cornwell has been a member of the grammar school faculty for the past five years and has endeared herself to all who have come in contact with her. She is an excellent teacher and will be greatly missed here. Mr. Parkinson is the son of a well-known pioneer family and is an exceptionally fine young man. After he returned from war he went to Long Beach and opened a ladder factory there. His business has prospered and he is rapidly becoming one of the well-known business men of the southern city. After their honeymoon the young couple will make their home in Long Beach.

ENTERTAIN THEIR CLASSMATES

The Graves home on Main street was the scene of a very pleasant gathering Thursday night after the commencement exercises at Sequoia. Miss Christine Graves and her brother, Nathan, entertained a number of their high school friends.

The merry makers did not gather until after the exercises at the Sequoia, but they made up for all of the lost time by having a royal good time. Dancing was the principal part of the evening, but other forms of amusement were indulged in until a late hour when the young folks reluctantly departed for their home.

May Accept Local Church

Dr. Roland B. Dodge, secretary of Congregational work for Northern California, preached in the local Congregational church Sunday and was asked by the committee to consider a call to the local field. Dr. Dodge and Mrs Dodge visited Redwood City on Wednesday and may decide to come here. The reverend gentleman is a graduate of Amherst College and of a big theological seminary in the east For several years he was engaged in pastoral work in Hawaii. For the past four years he has been in his present position in San Francisco.

The local church would be fortunate should it secure a man of Dr. Dodge's class as he is a fine gentleman and an eloquent preacher.

SHORTRIDGE MAKES STIRRING TALK TO GRADUATING CLASS

The Sequoia theatre was packed to standing room last Thursday evening when the class of 1923 of the Sequoia Union High School were awarded their diplomas. An interesting and entertaining program had been arranged, and several musical numbers added to the attractiveness of the commencement exercises.

The speaker of the evening was Hon. Samuel M. Shortridge, who in his usual eloquent manner, dwelt upon the importance of the public school to the nation. "The public school," said this world famous statesman, "is the place to teach good citizenship." The senator also spoke of the honor of labor, and said that without labor, education counted for nothing. "Soft, white hands," said the senator," are not always the sign of a gentleman."

Three addresses were given by the students, one by Irene Crosby, one by William Converse, and one by Irma Follett. All three students were well prepared and delivered very able addresses.

Eight of the students who had been eligible in point of scholarship during their four years in high school to membership in the scholarship society, were awarded pins by Otis M. Carrington who also presented a medal to Irma Follett for general good scholarship during the whole four years of her attendance.

Those receiving pins were: Irma Follett, Delores Lyons, William Converse, Joe Weeden, Bessie Payne, Agnes Flynn, Dorothy Beebe and Irene Crosby.

Thomas Heydenfeldt, clerk of the board of trustees, awarded two athletic medals, these going to Stanley Mitchell and Carlyn Scherer. Three blankets, bearing the emblem of the school were awarded to Theodore Thompson, Stanley Mitchell and Ernest Locatelli. These blankets were donated by interested people of the town, and were awarded for the splendid showing the three young men had made in the basketball team of the school.

Musical numbers which were enjoyed were a song by the senior class, several violin selections by Donald McKee, and a chorous by the Treble Cleff Society.

The presentation of the diplomas was made by A. C. Argo, principal of the school, who in brief, but an earnest talk, gave good advice to the graduating class.

The audience joined in the closing number which was the singing of the national anthem, "The Star Spangled Banner."

FORMER SEQUOAINS BANQUET AND DANCE AT TONY'S CAFE

The members of the Sequoia Alumni Association met at Tony's Cafe on Main street last night and enjoyed a sumptuous banquet, which was followed by a meeting of the members for the purpose of electing officers. President J. W. Locker of the association presided. Clyde Higgins, who graduated in 1919, was elected president for the coming year, and a constitution was drawn up for the association, a need which has long been felt.

Following the meeting the members adjourned to the Women's Club house, which had been artistically decorated for the occasion by Kendel-Towne, who also furnished the music for the dance, which was enjoyed by the alumni on the maple floor of the club house. About 125 former Sequoians attended the banquet and dance.

Shortage of Fruit Pickers

The following communication from the San Jose chamber of commerce:

In view of the abnormally large crop of apricots in the Santa Clara valley, in addition to the usual crops of prunes, peaches, pears, etc., necessitating an extra supply of help for picking, drying, canning and packing, the San Jose chamber of commerce, in order to assist the valley growers, has established at its own expense a temporary labor bureau and is announcing through the press of the state that there will be plenty of this kind of work in the valley with the opening of the apricot season, about the 1st of July, especially for men or families having their own camp outfits. Families and others that desire to take a profitable vacation in one of the most delightful sections of California, are requested to communicate promptly with the chamber of commerce, San Jose.

Fraternal Orders Commend Action of Supervisors

At a meeting of the I. O. O. F. last Monday, a resolution commending the action of the supervisors in taking up the preservation of the county's redwood groves, was unanimously passed. A similar resolution was passed by the Native Sons at a meeting last Thursday night. The action of the supervisors has so far proved one of the most popular steps ever taken by that body. As far as present indications may be relied upon, the preservation of the redwoods will, and rightfully, too, meet with the instant and unanimous support of every section and every citizen of the county.

BOY SCOUT DRIVE FOR FUNDS TO BEGIN MONDAY

Redwood Troup of Boy Scouts will make a house to house canvass for funds with which to carry on the work of the troup for the next year. The drive will start next Monday and continue until July 4th. The Boy Scouts have been reorganized under the leadership of the American Legion and are planning for an active campaign of scout activities during the coming year. The success of this drive will in a large measure, determine the extent of the activities of the local troup. The men of the Legion are devoting their time to helping the boys, but the scout troop, like every other organization, needs money on which to operate. It is for this reason that the present drive is being inaugurated. Arrangements have been made with both of the local banks and with the local newspapers to receive donations for the scouts.

FOR BETTER WATER

One thing that Redwood City needs more than anything else is an adequate supply of good water. The lack of this important element has kept a number of manufacturing concerns from locating here. A local resident who owns a factory in San Francisco has said on more than one occasion that he would move his plant here if the water situation were different. His analysis of the water we now use showed so much mineral contents that he feared for the life of his boilers. Consequently he did not bring his factory here.

This condition can soon be changed however, if our city council desires the change. The Spring Valley Water Company will soon complete their Calaveras dam. They will then be in a position to supply all of the peninsula towns with water. That dam and the Hetch Hetchy project will insure an adequate water supply for this section for all times.

Redwood City should begin at once to lay plans for Spring Valley water so that we may attract big manufacturing plants.

BIG TENTS AND SMALL COMMUNITIES

Not long ago the biggest tent in the world blossomed and grew in our neighboring town of San Carlos The tent housed a pageant. As San Carlos is a very small community, the whole wide world was invited to take part and exhibit its beauties and necessities at the big show. Now, as could be expected the ones who projected the project had to be reimbursed for the use of their tent, etc., etc., etc., ad infinitum. Accordingly they looked for some one who could beguile every responsible citizen of this section, who would do so, to guarantee the expenses of the pageant. Big promises were made to the guarantors. It was said that so much space was sold in the big tent that the spectators would have a hard time to get between the booths.

Now alas, and alack after the ball is over the guarantors find that they must put up until it hurts. Our idea of the thing is that no man has a right to induce his neighbors to go into such a scheme. We believe that the projector was honest in his idea that the thing would benefit this community. Nevertheless he is entitled to all of the censure that is coming to him. A man has a right to spend his own money as he pleases, but he has no right to obligate his friends for any large amount for some big show that will be of no permanent benefit to anyone.

SHORTRIDGE ON THE SCHOOLS

Last Thursday night Hon Samuel M. Shortridge addressed one of the largest audiences ever assembled in Redwood City. In the course of his address the senator said, "I am a firm believer in the public school. The public school must be sustained." Senator Shortridge, himself a man of broad and liberal education, then went on to say, "Knowledge is power; ignorance is slavery. History has never yet recorded a nation which was steeped in ignorance, which was free." One of the leading statesman of the nation, the senator has had a chance, as few men have, to see the needs of the nation from the vantage point of authority. During his brilliant career in the U. S. Senate, Senator Shortridge has seen the nation in the throes of war and in the happier times of peace, he has seen great experiments tried, some of which have failed, and others of which have brought great blessings to the people; and with all this experience to guide him, the senator did not hesitate to place the public school at the very cornerstone of the nation. "The public school," said Shortridge, "is, and must, train men and women for good citizenship."

BOY SCOUT WEEK

The week preceeding the 4th of July has been set aside here as Boy Scout Week. During this week the scouts will canvass the town for funds for carrying on the work of the troop. In order that the citizens of the town may have no hesitation in helping this worthy cause, it is well to briefly review the needs of the troop and the uses to which the money which will be raised in the drive will be used.

At present the Boy Scouts have no adequate place to meet. The gymnasium where they are meeting at present, is not suited to the needs of the boys in any way, and it is the purpose of Scout Master Mullen to secure a better and more suitable meeting place for them.

There is no equipment of any sort for athletic purposes available to the scouts, the equipment is necessary though the proceeds from the coming drive.

The money donated will be administered by the American Legion and will be used only for the necessities of the troop. Every cent will be used where it will do the most good for the boys of the community. Help the boys to help themselves.

UNCLE SAM'S SOUND MONEY

The American dollar stands supreme throughout the world. It has displaced the English pound, the French franc, the Russian ruble, the German mark, the Italian lire—in fact, all of the other moneys. There was a time when the dollar was not known and if seen was distrusted. Now that has all passed. Anywhere outside of America if the American dollar shows it is taken quickly and sequestered as something precious. All of the other moneys are at war with the American dollar, but they cannot make even a dent.

SUPT. ROY CLOUD MAKES PLEA FOR REDWOOD PARKS

Superintendent of Schools, Roy W. Cloud, appeared before the County Board of Supervisors last Monday to plead for the preservation of the Redwood groves of the county, which are now falling prey to the woodman's ax. Superintendent Cloud called particular attention to a grove on the Pescadero creek near the old Harrison post office, which has recently been sold to a large lumber concern, who contemplate cutting the timber in August. The grove is one of the finest of the few remaining stands of redwood timber, and should be preserved, said Mr. Cloud for future generations and as a public park. The park could be purchased, he said, and then given to the national government, which would care for it. The plea for the redwood met with a ready response from every member of the board and from District Attorney Swart, who was also present.

The district attorney also called attention to the Sear's property at La Honda which he considered should be purchased and maintained as a public park. Supervisor Hickey was the only one of the supervisors who spoke upon the subject, but he, in quite an eloquent talk urged some speedy action to be taken to preserve the trees, which could not be grown to their present size in thousands of years. Supervisor Hickey cited in support of his argument the case of Michigan which had been almost denuded of trees through wasteful cutting. Now, he said, efforts were being made to have the trees replanted, but so far no great success had been made in reforesting the state. Supervisor Hickey moved that the chairman of the board appoint a committee of five representative men of the county to look over the county for good groves of redwood and make inquiry as to the prices asked by the owners of the land. The motion was seconded by Supervisor Brown and met with the hearty support of the board.

Mrs. Mary Winter and Mrs. Minnie Kincaid appeared before the board, representing the Women's Relief Corps, Mrs. Kincaid spoke in regard to securing head stones for the graves of the soldiers of the G. A. R. who are buried in Union cemetery. The government, she said, would furnish stones for all soldiers whose war record could be obtained. About 32 could be obtained in this way which would leave seven, it was for the purpose of asking the board for aid in securing headstones for these that the ladies were present.

The board agreed to place the stones on the graves at a cost not to exceed $5 per grave.

A communication was received from Clarence Walter, chairman of the Menlo Park Fire Commission, stating that $9,000 will be needed for the district in the coming year, and asking that a special tax be levied for that amount, the money to be deposited in the county treasury to be used only upon a warrant from the Menlo Park Fire Commission. This matter was referred to Auditor J. J. Shields.

A sanitary district at San Carlos was established by action of the board following the filing of affidavits of the canvassing of the election returns of the election held last week.

The report of the county veterinarian, Dr. W. C. McLean, was received and filed and a resolution passed endorsing the dredging of the channel of the bay for the improvement of navigation. There being no further business the board adjourned.

CAR DEMOLISHED IN BROADWAY JAM

A small car belonging to J. M. Burtes of 1405 Lyon street, San Francisco, was badly damaged last Wednesday evening when it was struck by a car driven by Mrs. Charles Patrick Partridge of Glendale. Mrs. Partridge was making the turn at the corner of Winslow street and Broadway, when her car struck the car driven by Burnes. Mrs. Partridge became excited when the cars struck and forgot to stop her car which continued to push the smaller vehicle ahead of it until they ran into the light pole on the corner. The impact with the pole completed the damage which the collision with the larger car had begun for the little car which was left a complete wreck. The other car was not badly damaged. Three women in the larger and two men in the smaller car were uninjured.

Sequoia Student Dies at Palo Alto

Deep sorrow is felt in the community over the passing of Miss Catherine Gross, 18-year-old high school girl, and the daughter of Mr. and Mrs. William Gross of this city. The young lady passed away in Palo Alto hospital last Monday, following a protracted attack of pulminary trouble engendered, it is said, by an attack of influenza which she suffered some months ago.

Miss Gross was born in Iowa, but quoia, which institution she had been attending since her family came to Redwood City about a year ago. She was well liked by both the faculty and the students, among whom she had made many friends.

Miss Gross was born in Iowa, but had spent the last ten years of her life in California. She is survived by a sister and two brothers.

The funeral was conducted at the home of the parents of the deceased, and from thence to Mt. Carmel Catholic church, where mass was celebrated. Interment was in the Holy Cross cemetery in Menlo Park.

I. K. O. Z. to Form New Order

Following the announcement of the I. K. O. Z. to withdraw membership from Sequoia comes the announcement that they will form and sponsor a new order in the high school to be known as the Iota Zeta. The new order will be made up of junior and senior boys of high standing in the school and its purpose will be to carry on the work that the I. K. O. Z. has started at Sequoia. The Iota Zeta will work inside the school and the I. K. O. Z. as an Alumni order will no doubt lend a very helping hand to the school in many ways.

Many applications for membership in the new order have been received by the I. K. O. Z. and from all present appearances the Iota Zetas will be met very favorably at Sequoia.

The I. K. O. Z. will initiate the charter members of the Iota Zeta tonight. Ten senior and junior boys will at that time be given the honor of being the first members of the Sequoia high to be admitted to the new order.

Although the ceremonies will to a great extent be for members of the I. K. O. Z. only, there will be several events which the public will be allowed to witness.

The ceremonies will start with a parade through the down town section of Redwood City and will terminate in front of the high school steps, where there will follow a few demonstrations on the part of the candidates.

The favorite I. K. O. Z. goat has had his horns sharpened and has been on a diet of rusty tin cans and old nails for the past two weeks in preparation for the ten Sequoia boys to be admitted to the Iota Zeta and many a thrill is expected by both the I. K. O. Z. and the initiates.

Those interested are invited to follow the parade to the high school steps tonight at eight o'clock.

ICE IS NO LONGER LISTED AS A LUXURY

American people are rapidly beginning to appreciate the value of ice as an absolute necessity not only for the preservation, but preparation of many choice foods. This interesting contention figures as the basis of a feature article in a trade report recently issued by the National City Bank of New York.

Today as a practical result of advice given by food economists and health specialists, housekeepers are commencing to realize that ice should no longer be regarded as a warm weather luxury, but as a very material everyday necessity. It is a well known fact that when the home circle is gathered around the family table for dinner more than one is looking forward to a dainty prepared dessert in place of rich, heavy pastries and puddings.

Frozen dishes, carefully prepared, when served at regular intervals throughout the year are always wholesome. They not only look attractive, but lend a certain satisfaction to the most exacting of epicurean tastes. And they're economical. There's only one secret about these dishes—keep plenty of ice in the refrigerator.

It is estimated that the money spent for automobiles would pay the mortgage off every home in the nation. Yes, and probably the money spent on homes would pay off the mortgage on every automobile, too.

ABORIGINIES OF SAN MATEO COUNTY

The following account of the aboriginal life of San Mateo county is the second of a series of historical articles to be published from time to time in the Times-Gazette. The material for these articles is taken from an early history of the county, which was loaned to us through the courtesy of Mr. Ed. Weeks of Pescadero.

Indians of San Mateo County

The native tribe which roamed the valley of San Bernardino, now known as the Santa Clara valley, were the Olhones, sometimes called the Costanes, who were worshippers of the sun, and believed in an evil spirit who took cognizance of their actions, whom they were wont to propitiate. They had some very crude ideas of the future state, while their traditions, if they had any were of the most meager kind.

Whatever may have been their appearance and character in the sixteenth century, it is certain that the Indians of this part of the coast of California, as they have ever been known to the American pioneer, are no fit subjects for encomiums.

The tribes inhabiting the shores of the bay of San Francisco did not essentially differ from those in middle and southern California. They were, perhaps, less warlike than their neighbors on the north, and certainly less so than the mountain tribes. They were small of stature, compactly built, and possessed of considerable strength and endurance. For the most part they were beardless, but had long coarse hair. Their complexion was not the traditional copper color, being much darker; in fact, not much lighter than the African. The formation of their heads and the contour of their features indicated a very low rank in the educational scale. It may well be supposed that climatic influences played an important part in the formation of their character. The salubrity of the climate rendered unnecessary those protections that the tribes inhabiting less propitious climates were forced to provide. The rudest possible architecture sufficed and they deemed the clothing of their bodies unnecessary. Nature provided the means of subsistance. Of marine productions; oysters, mossals, and fish were abundant and easily obtained. By his intimate acquaintance with the habits of bird and beast, the Indian was enabled to capture a sufficient supply, although employing the rudest contrivances, while roots and herbs, nuts and insects filled up the measure of his wants. The tule huts and the caves of the rocks afforded sufficient shelter to a people that for the most part disdained any covering but the canopy of heaven. Generation after generation passed under conditions so inviting to inaction and repose, and without the spur of necessity, had so wrought upon the character of these natives, that they were well neigh incapable of improvement.

At the advent of the foreign settlers in this county, a mere handful only was found, and that chiefly at the Seventeen Mile House and at Spanishtown. When lumbering began at Searsville, there were less than half a dozen inhabiting that part of the county. As long as the old fashioned Mexican manners and habits of living were continued a few were always to be found at the ranches of all the landed proprietors, especially at the Sanchez, Vasquez, Miramentez and Marteniz ranches.

Although not so numerous here as on the opposite side of the bay, yet the accumulations of debris—called Indian mounds—testify to long occupation, and great numbers within the limits of San Mateo county. These mounds were simply camping grounds, and acquired the uniformly circular and elevated outlines by receiving the camp refuse and the bodies of the dead. Mound street in Redwood City, traverses one of these, and from that circumstance receives its name. Near the grounds of the Union cemetery is another of considerable size.

At these mounds, or rancherias, are to be found almost all the evidences of Indian life such as stone cooking utensils and contrivances for capturing game and fish their ornaments of shell and stone; their weapons of warfare and the ashes of their dead. The most elaborate pieces of workmanship to be found are the mortars which vary in size from a capacity of a quart to several gallons.

These people were superstitious in the etreme but like the human race everywhere in whatever depth of degradation, they had a vague idea of a future state of rewards and punishments, and believed in the existence of good and evil spirits. They paid their devotion to the former offerings, while the latter were driven away with such devices as they imagined the devil stood in fear of.

LAST OF OLD SPANISH FAMILY DIES IN L. A.

Mrs. R. M. deBoronda, formerly Ramona Marteniz, youngest daughter and last surviving child of Maxima Marteniz, who was once the holder of the old Spanish grant, known as the Marteniz rancho, near Portola, died in Los Angeles on the 8th of this month. Mrs. de Boronda was born in Santa Clara and spent the greater part of her life at that place. She was 77 years of age at the time of her death.

Mrs. de Boronda is survived by the following nieces and nephews: Mrs. Peter Faber of Palo Alto; Mrs. Joseph Boos of San Jose; Mrs. Gonzales of Halfmoon Bay; Mrs. Robles of Mountain View and Joseph Marteniz of Watsonville. Quite a large estate is left, laying mostly in Santa Clara county.

There is always more money in somebody else's business.

FIVE FINED FOR ILLEGAL FISHING

Violating the state game laws pertaining to the catching of abalones cost three men a total of $125 last Monday in the court of Justice of the Peace Ray Griffin. The three men, who were arrested by deputy game wardens, Jack Burke and L. B. Sherwood, were J. Morris and Frank Dutra of Hayward and George Gustafison of San Francisco. The two Hayward men were charged with catching undersized abalones. They were fined $50 each. The third man was charged with catching more than the limit and was fined $25.

Last Thursday two more violators of the game laws were brought into Judge Griffin's court by Deputy Jack Burke. These were Antonio Bellanfoni of 198 Brampton avenue, San Francisco, and D. Franzi Dominick, 179 Brampton avenue. The two men were found guilty of catching abalones far under the size permitted by the law. Both men were given the option of paying a fine of $50 or of accepting the hospitality of Sheriff Lampkin for ten days. Both paid the fine.

De Molays to Give Dance

All eyes of the younger set of the peninsula are set upon the dance to be given by the Peninsula Chapter Order of DeMolay. The dance is to be held at San Mateo masonic Temple, Saturday evening, June 30.

The last dance given by the De Molays at San Mateo was patronized so favorably that the members are sparing no trouble or expense in securing extra features.

They have secured Allen's Melody Monarchs from San Francisco to furnish the music for the occasion and from all indications the music will be unsurpassed. This orchestra is one of the most popular hotel orchestras in San Francisco, having played at the Hotel Richeleau. The committee in charge of the dance is working very hard and will no doubt succeed in giving a dance such as will be long remembered by all those attending.

P. G. & E. EXTENDS LINE

In order to take care of the increased demand for power service at the Crystal Springs Country Club, where they have increased their pumping plant by 15 additional horsepower the Pacific Gas & Electric Company is arranging to reconstruct in that vicinity to take care of this demand.

An extension is also being made to supply Menlo street lighting district with 12 additional street lights in Stanford Park.

Mrs. M. G. Soto Called by Death

Following an operation performed last Thursday at the Hulings hospital in this city, Mrs. Mary G. Soto passed away last Saturday. Mrs. Soto had lived in Redwood City for over 40 years, and for the greater part of the time had been engaged in the restaurant business, in which line she had become famous for the preparation of tamales and other Spanish dishes.

Mrs. Soto was a native of California, and a descendant of one of the early famous Spanish families of the state. She was 68 years of age. One son, Joseph Sepulveda, survives. The funeral was held last Monday from the parlors of the James Crowe Company, thence to Mt. Carmel Catholic church, where a mass was celebrated. Interment was in Holy Cross cemetery at Menlo Park.

LOCAL BUILDING & LOAN ASS'N. MATURES SERIES NO. 77

$15,000 Paid to Shareholders

The San Mateo County Building and Loan Association announces that Series No. 77 of its stock reached its mature value of $200 per share on the 15th inst. when $15,000 was distributed to the shareholders in the series, this amount being the accummulations of the monthly dues paid in and compounded interest earned thereon. The shareholders are privilleged to withdraw the value of their shares in cash or allow the same to remain on deposit with the Association for which interest bearing certificates of investment are issued, a safe and profitable form of investment.

There is a good demand for loans from the association, principally for the erection of new homes, many in Redwood City and vicinity. Investors with the Association are thus aiding the improvement and upbuilding of the Peninsula through a local institution and also relieving the shortage of homes, which has been a very serious condition.

Series No. 123 was started on the 1st instant and investments are encouraging.

The local Building and Loan Association was organized in this city thirty-three years ago and has since that time proved an economical and profitable means of saving money to many residents of this city, besides furnishing the capital by which numerous homes have been erected. It is considered one of the safest investments in California.

Information regarding investments and loans on easy monthly payments may be obtained at the office of the Association, 90 Broadway.

Cleaning Without Odor by the **F. Thomas** *Process*

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

Miss Cecelia Carleton and Miss Grace Carleton left yesterday for Yosemite Valley for a vacation of two weeks. While there they will be guests of Yosemite Lodge. Numerous other Menlonians are vacationing in that wonderland, about which poets and bards have sung so sweetly.

A large store building is being erected in Valparaiso Park on the highway, opposite the grammar school. It is to be a substantial structure, modern in every way.

The grammar school closed with appropriate exercises yesterday for the summer vacation. There was a large attendance of the parents and patrons of the school.

The people of Menlo Park are enjoying cool, pleasant weather, while in many places of the east, the residents are dying with the heat daily. Verily we have much to be thankful for.

Dr. A. E. Blake has moved into his new seven-room bungalow on Roble avenue. It was carefully planned by the doctor and is a modern, ideal home fit for the gods to enjoy.

Father Kunkel will leave in a few days for Baltimore to spend his vacation among the scenes of his early priesthood and where he pursued his theological studies.

The Warren School closed last week for the summer vacation. A number of the students will pass the vacation at the Warren summer school at Zayante, in the Santa Cruz mountains.

Miss Gertrude Kavanaugh is attending the grand parlor of native daughtres this week at Stockton. She is a delegate from Menlo Parlor N .D. G. W.

Mr. and Mrs. George Nickel left Burlingame last Thursday for Santa Barbara. They will pass the summer at Miramar, where they have a cottage . Mr and Mrs. Williard Chamberlin of Pittsburgh are expected this week to take possession of the Nickel house in Burlingame for the summer.

The old fashioned dance given under the auspices of Menlo Parlor, N. D. G. W. in Native Sons hall Wednesday evening was a delightful event. All barn yard dances, shimmy and other terpsichorean monstrosities were strictly tabooed from the evening's program.

James Burke, son of Mrs. B. Burke, was united in Marriage to Miss Delia Burke of San Francisco, at a nuptial mass in the Church of the Nativity Wednesday morning. The matron of honor was Mrs. Annie Peacock while M. Mahoney acted as best man. The edifice was crowded by friends and well-wishers of the contracting parties who witnessed the impresivp ceremony performed by Father O'Kelly, pastor the the church. After the wedding breakfast at the home of the groom's mother on El Camino Real, the young couple motored away to the south to spend the honeymoon. The pretty bride spent her summers in Menlo Park and is well known here and liked for her charming manner and bewitching ways. Mr. Burke is a native of Menlo Park and is engaged in business in Palo Alto. Mr. and Mrs. Burke will be at home to their friends in Menlo Park after the first of the month.

The big century plant in the front portion of the Menlo Park hotel grounds is about to bloom. Soon it will unfold a beautiful white flower that will send forth its perfume for three weeks then close its petals and the plant will die, having fulfilled its mission. It is said these plants bloom every hundred years and then pass away to the floral kingdom above. Some time ago a large stem began protruding from the center of the plant and has now reached a height of thirty feet. Experts say it will blossom in about two weeks. Crowds view the floral freak daily and when the blossoms come on, it will be the center of attraction.

Patrick Moffit, a Palo Alto expert shoe shiner, has opened a place of business in Menlo Park and is prepared to polish shoes with the best of 'em.

The Fosters, wealthy easterners, have taken the Atherton Macondray home at Atherton for a period of two years. They are delighted with this locality.

The numerous friends of Mrs. E. S. Heler will be happy to know that he is rapidly recovering from her illness and will soon be convalescent.

It is rumored that R. E. Miller, the multi-millionaire, contemplates the erection of two new residences on his property at Atherton.

There is a tremendous travel on all western roads at the present time. It is almost impossible to make reservations on Pullman cars. A great number of Californians are going east for their vacations, while vast crowds are coming to the Pacific Coast to enjoy the climate. Never before in the history of the country have the railroad companies been taxed to such an extent, Mr. Veverker, the local agent, is selling a great many tickets for eastern points, but finds it difficult to make reservations in numerous instances. Mr. Veverker says the business of his department in Menlo Park has doubled in the past year. Particularly is this so in the number of commutation tickets sold at the first of the month.

Announcement is being made of the engagement of Miss Elizabeth Cunningham, daughter of the late Mrs. James Cunningham of Menlo Park and New York, to Dr. Willard Rappleye of New Haven, Conn. The latter is a bacteriologist of note and has visited in California.

Mrs. Alexander Hamilton is one of the matrons of the Menlo summer colony who has planned a luncheon to precede the charity circus on Saturday. The Misses Grace and Happy Hamilton, daughters of the Alexander Hamiltons, will ride in the circus.

Yesterday the petition asking the War department for a permit to construct the Dumbarton bridge over the bay was forwarded to Washington. It was accompanied by a protest from A. Schilling who owns property on the other side of the bay near Niles. It is believed the department will pay no attention to the protest, as it is without merit, and will grant the prayer of the petition at once, so that actual work on the bridge may be commenced by August 1st and be ready for travel by 1925.

NOTES OF RUNNYMEDE

An automobile, almost new, was wrecked Tuesday afternoon when it overturned on Cooley avenue, near the Costa place. It belonged to H. C. Vierra and was driven by one of his sons when the accident happened. Two other boys were with him and fortunately none of them were hurt.

Pupils of Mrs. Charles L. Hyde gave a recital at her home in Palo Alto Saturday afternoon, their mothers being guests. Seven in the program were from Runnymede. Erma Follett, Maxine Anderson, Billy and Jean Towers, Marian Rodgers, Catherine Studley and Bernice Sekera. Mrs. Keilar, a sister of Mrs. Merwin Sr., of Runnymede added much to tre program by giving some splendid readings. A social time followed the program.

J. Pollard who has been in the Palo Alto hospital the past few weeks, was able to be brought home Tuesday.
